Attached are figures for physical and personnel security elements of the industrial security program, and unique costs figures. As we discussed, you will have the data on the TEMPEST, Communications and Information elements from OC and ISSG to complete the overall program writing. Also, as we discussed, there won't be any figures here for the OD&E side, so these data represent only Agency funded contracting. I didn't break out ISB costs as to OL/OD&E activities though--all ISB costs are included here.
